1. Outlining Your Vision
   - A member of the Waterworks Kitchen Concierge team personally meets with you to discuss your needs.
   - We work together on personalized floor plans and elevations to meet your needs. To help you envision the proposed design, our in-house team can present you with samples and state-of-the-art 3-D renderings.
   - Throughout your project, we spend time listening and asking questions to understand your needs, design challenges and lifestyle. Once we have identified every detail that matters to you in the space, we work with you to achieve your perfect balance of form and function.

2. Space Planning
   - During a showroom walkthrough, we help guide the selection of each element of your kitchen, including the cabinetry, faucets, sinks, surfaces, lighting and accessories. Our skilled consultants ensure that every choice is coordinated to create the lifestyle you envision.

3. Product Selection
   - We present the complete design with selected materials for your review, and confirm your appliance selections. Throughout, we ensure your design is balanced, functional, and appropriately styled.

4. On-Site Consultation
   - Each element of your Waterworks kitchen is personally coordinated. A Waterworks representative will inspect your cabinetry before shopping. During your personal consultation, we review the details and customization strategies for your project. Fromtcotm is hand-printed on-site and staining of finishes to the perfect touch, and we ensure your kitchen is delivered as you envision.

5. Design Sign-off
   - We review care and maintenance guidelines with you, on-site wherever possible. Our experts remain available throughout the lifetime of your kitchen, with services such as complimentary touch-ups for hand-painted cabinetry. All products are backed by our Waterworks warranty and a commitment to service born of 40 years experience.

6. Delivery & Installation
   - A member of the Waterworks team personally visits your kitchen during installation to verify all measurements firsthand.

Handcrafted cabinetry and distinctive hardware ground a well-designed kitchen.
Quality Craftsmanship

Cabinetry is the foundation that defines your space. Our team works closely with you to create personalized, intelligent designs of unsurpassed integrity—all built in the U.S. by skilled cabinetmakers in small mills that have practiced their art for generations.

American Timber

Each cabinet starts with the highest-grade American walnut, quarter-sawn white oak or maple, and is handmade in artisanal, family-run mill shops that produce intricate custom products on your schedule.

Substantial Construction

Our solid-wood construction is substantially stronger and thicker than the industry standard, resulting in highly durable cabinetry. Our door frames and doors are made of quality timber, giving hinges a secure foundation that holds up over time.

Precise Joinery

The artistry of our cabinetry shows in our joinery, which is uncommonly neat, smooth and tight. The drawers, constructed of solid pieces of oak or walnut, have a noticeably seamless feel.

Consistent Grain Direction

The natural wood grain direction stays consistent throughout our cabinet interiors and exteriors. An artisanal touch, it ensures a more finished, cohesive look that elevates the entire space.

Premium Shelf Pins

Our screw-in shelf pins are made of steel, and we fill every adjustable shelf hole with a gleaming, threaded brass grommet—special touches that preserve the strength and integrity of your shelving while giving cabinet interiors extra polish.

Hand-Pieced Mullion Glass

Our mullion doors feature true divided lights, made from small panes of glass that are individually trimmed on each door front and the back. This meticulous, time-honored approach produces an effect that is highly detailed—and true to fine craftsmanship in every way.

Generous Toe-Kicks

The beauty of our baseboards lies in their old-world elegance. At 5 ¼ inches high, they follow the European model, floating the cabinets farther from the floor so they feel more like furniture.

Consistent Timber

Custom cabinetry also available for the bath and other rooms of the home. For more information, visit a showroom or waterworks.com.
Our signature cabinetry designs are infinitely customizable. Personalize the exteriors with uncommonly beautiful panels, paint colors, hardware and more. Then bring your singular touch to the interiors, with special finishes and insert configurations that suit your storage needs.

Our Belden cabinetry range is classic with a twist: a familiar paneled wood door reimagined in a distinctive, transitional style. With its subtle cove molding and wide flat band, the design pays homage to both American Federal detailing and 20th-century French neoclassicism. The resulting forms have a unique simplicity that pairs well with a variety of hardware styles and lends instant architecture to a room without overpowering it.

Customize it: Choose from 8 superior wood finishes and 24 paint colors, including on-site hand-painted options. Then further personalize the look with 1 or a mix of 9 door styles: mesh, chicken wire, antique mirror and other timeless panel designs.

On Tap

The classic draft beer tap, reinterpreted to create a beautiful experience in water delivery. The tall, arcing spout provides extra reach for filling large pots, while the substantial scale of the design makes it feel anchored and secure. A statement-maker in any setting.

Canteen

The traditional kitchen faucet, elevated into a luxurious, heavy-built product. Inspired by the clean simplicity of vintage water pumps, Canteen is sized for drama, with a tall, industrial-elegant spout and durable, handcrafted oak levers. This original, innovative silhouette brings character and dimension to a kitchen.

For more information and metal finish options, visit a showroom or waterworks.com.
Clayburn

Our interpretation of the classic farmhouse sink, updated for modern, utilitarian elegance. Artisans meticulously mold each vessel from uniquely strong fine fireclay, fused with a highly durable glaze. The resulting forms are precisely detailed and exceedingly resilient to scratches and stains.
Henry

Available in a striking pull-down style, Henry marries Bauhaus simplicity with straightforward American ingenuity. With its pronounced hexagonal nuts and coin-edge rings, the silhouette is familiar yet entirely original. The collection’s authentic design easily transitions between modern, traditional and utilitarian settings.

Dash

The perfect blend of art and function, Dash pays homage to design elements of the 1930s, with pared-down shapes, softened curves and minimal details. Beautiful and sophisticated, the collection has a unique simplicity that’s anything but basic and is versatile enough to fit into any décor.

For more information and metal finish options, visit a showroom or waterworks.com.
Regulator

Regulator plays on the design of industrial boiler room controls from the early 20th century, when pride was lavished on hard-built parts. Translated into handcrafted forms, these fittings lend a sense of rugged beauty to the kitchen. Regulator elements are rendered on a large scale that reflects their purposeful past and the mechanics involved in the flow of water.

R.W. Atlas

A groundbreaking, industrial-inspired collection that entices with powerful shapes, genuine materials and unique aesthetic details. R.W. Atlas references a mix of precision-crafted goods from the past, from early microscopes to vintage cameras. This is an innovative and original design, evoking memory in a modern way.

For more information and metal finish options, visit a showroom or waterworks.com.
Kerr

An uncompromising and endlessly customizable take on the steel sink. Unlike conventional models, which are molded from a single sheet of steel, stretched thin at the walls, Kerr is cut and welded together from 16 gauge, food-grade stainless steel. The result is a seamless, commercial-grade product with extreme strength, soundproofed to reduce noises made by dishes and cookware.

Sinks are available in custom sizes. For more information, visit a showroom or waterworks.com.
Easton Classic

One of the very first Waterworks collections, composed of Edwardian styles that are still relevant today. While the design reflects its deeply historic origins, its iconic proportions and scale have been carefully refined. Choose from a range of styles and custom handle materials; a smooth handle base gives Easton Classic fittings a distinctly American feel.

Easton Vintage

Like our original Easton Classic collection, Easton Vintage translates 100-year-old forms through the distinctive Waterworks lens. With its hexagonal details, the design also pays homage to an age of exposed construction—proof that you can reference the past but still embrace the future.

*Spray sold separately to personalize handle combinations. For more information and metal finish options, visit a showroom or waterworks.com.
Julia

Our unique, modern spin on 1920s French country style. From a distance, Julia’s silhouette looks like a softened hourglass; up close, the design’s precise detailing comes into focus. Vintage touches—like a graceful, high-profile spout—transcend eras, allowing the collection to fluidly transition between a range of spaces, from formal to rustic.

For more information and metal finish options, visit a showroom or waterworks.com.
**Normandy**

Old-world craftsmanship sets these copper sinks apart. Artisans bend a sheet of copper over a wooden form and meticulously hand-shape it with large, heavy mallets, resulting in gentle waves with rich textural beauty. Unlike copper sinks that are machine-hammered and have a uniform pattern of dimples, each handmade Normandy vessel is a strikingly authentic, one-of-a-kind selection.

**Titan**

Superbly crafted from solid blocks of the finest Carrara marble and French limestone, our Titan sinks are carved, honed, and polished by hand, using time-honored techniques. As a result, each piece takes on a smooth, subtly weathered patina of ancient sculpture. Remarkably, Titan vessels can look classic or modern—and only get better with age.

**R.W. Atlas**

Hand-carved from a single block of stone with rich dramatic veining, the R.W. Atlas sink is finished on all four sides, inviting apron installation in any orientation.

Orleans
An expertly proportioned mixer that offers a small footprint while delivering large kitchen amenities. With its tall, pivoting gooseneck spout and lever handle, the Orleans collection complements a range of aesthetics, from urban modern to French country.

Formwork
Sculptural forms that defy the ordinary, these modern-minimalist elements represent a harmonious synthesis of form, function and aesthetics. Unexpected geometry and the transition of planes create a subtle but warm expression.

.25
The ultimate in utilitarian elegance: a simple and understated modern design that is equally functional and beautiful. With a quarter-radius curve at every turn,.25 is at once graceful, clean and reductive.

For more information and metal finish options, visit a showroom or waterworks.com.
Universal Water Dispensers

Choose from inspired, streamlined designs that suit any style and keep the focus on craftsmanship.

Universal

Designed to complement any of our Waterworks products, these sophisticated modern forms are crafted on a dynamic scale. Slender and streamlined, they bring proportion and balance to any environment.

Aero

Inspired by the stepped detail of 19th-century telescopes, Aero has an informal and distinctive temperament. The innovative design combines soft, refined curves with both contemporary and traditional touches. Each element sets a cultivated, historically modern mood.

Calais

A unique style designed for kitchen and bar applications, Calais has a signature “T” shape with workhorse lever handles, adorned with finials at the tip.

For more information and metal finish options, visit a showroom or waterworks.com.

Concourse

Artisanal and textural, our classic terrazzo tile is handcrafted from smooth cement embedded with fragments of stone. The result: a quietly luxurious way to introduce interest and dimension. Ideal for kitchen countertops and, when used in large format tiles, beautifully nuanced on floors, it gives any design scheme a quietly modern edge.

APPLICATION: Backsplash, Wall, Floor, Countertop
MATERIAL: Matte Terrazzo
ASSORTMENT: Field Tiles, Slabs
PALETTE: 4 matte colors, from clean gray-white to sandy taupe to speckled charcoal hues.
FEATURED: Slab in Topsoil Matte

Promenade

Promenade celebrates the centuries-old tradition of making cement tiles, combining natural materials with artisanal craftsmanship. Eco-friendly and highly durable, the collection includes both modern and traditional patterns, each cast in a uniquely beautiful and engaging palette to help you design an enduring, one-of-a-kind surface.

APPLICATION: Wall, Floor
MATERIAL: Concrete Collection of Solids, Patterns, Terrazzo and Aggregates
ASSORTMENT: Field Tiles, Decorative Field
PALETTE: 44 solid and customizable colors, which can be paired with terrazzo and aggregate as well as decorative accent designs.
FEATURED: 8” x 8” Dash Decorative Field Tile in Haven and Navy Matte

For more information, visit a showroom or waterworks.com.
Penny Tile

Both modern and traditional, Penny Tile has a graphic appeal that is familiar yet forever fresh. Choose from subtle or bold shades, paired with contrasting or complementary grout, to create engaging, timeless pops of pattern. A matte or glossy finish boosts the texture of these durable, versatile forms, adding to the intrigue.

APPLICATION: Backsplash, Wall, Floor

MATERIAL: Small Format Porcelain Mosaics

ASSORTMENT: Mosaics

PALETTE: 15 colors available in a variety of finishes and shades, from strong and soft color blends to classic white, black and sand.

FEATURED: 1/2" Penny Mosaic in Bronca Glossy

Repose

Handmade in an exquisite range of swirling shades, our glass mosaics combine deep tonal movement with a reflective quality that enlivens any kitchen design. Inspired by the early 20th-century art movement, the collection includes classic options, like an antique mirror finish, as well as bold, contemporary ideas.

APPLICATION: Backsplash, Wall

MATERIAL: Art Glass Mosaics

ASSORTMENT: Mosaics

PALETTE: 15 glossy colors, from cornflower blue to antique mirror, with undulating swirls of lighter and darker tones for an airy feel.

FEATURED: 1" x 6" Mosaic in Mist Glossy

For floor applications, vary by color and finish.
